

# Courtiers Ethical Value Equity R Shares Acc

As of 31/03/2026

## Investment Returns Since Launch

## Investment Objective

The Fund aims to achieve Capital Growth and Income from a portfolio of global company shares over a period of between 5 and 10 years. Only shares aligning with the negative screen applied by Courtiers Ethical Screening Criteria will be considered permissible investments for the fund.

## Investment Policy

To achieve its objective, the Fund will invest in shares of global companies. The Fund may also invest in other transferable securities such as units/shares in investment funds, global shares, investments issued by banks or governments that are a short term loan to the issuer by the buyer, warrants, cash and near cash and deposits. Derivatives (investments whose value is linked to another underlying investment such as shares or performance of a stock exchange) may be used to reduce risk or cost and/or to generate extra income and growth.

There is no guarantee that the Fund will achieve its objective over any particular period or at all.

This fund is actively managed, meaning investment decisions are made by a fund manager rather than by tracking a market index. The manager adopts a fundamental approach, often referred to as a “value” style, to selecting investments and gives each investment an equal share in the portfolio. This equally weighted approach tends to lead to the fund having a bias towards small-cap stocks and “value” stocks. As a result, the fund’s performance can differ from its comparator for long periods—sometimes doing better, sometimes worse.

To help investors compare funds with broadly similar characteristics, the Investment Association (the trade body that represents UK investment managers) has grouped many funds sold in the UK into sectors. This Fund is classified in the Investment Association Global sector. Investors can use this sector to assess the Fund’s performance.
